

Nazer Hdaifeh

📍 Founder & CEO, PerSpark · ⚙️ AI & Automation Consultant · 🧠 Data Scientist / ML Engineer

☎️ +45 42 31 67 10 ✉️ nazerof@gmail.com 🔗 linkedin.com/in/nazer-hd 🌐 nazerof.github.io 📍 Aarhus, Denmark

Master Engineer in Mathematical Modeling & Computation (DTU) with 5+ years across data science, ML, and enterprise automation. Founder of **PerSpark** — a B2B2C AI-powered SaaS learning platform — and freelance consultant integrating Agentic AI with RPA pipelines. I bridge production ML, cloud architecture, and product thinking to ship measurable outcomes.

📁 WORK EXPERIENCE

PerSpark — AI-Powered Learning Platform

Founder & CEO

📍 Aarhus, Denmark

Mar 2025 — Present

Building a B2B2C SaaS platform for AI-powered course generation: Next.js 15 / FastAPI / PostgreSQL / Redis / LangGraph on Azure Container Apps. Owning cloud architecture, CI/CD, AI orchestration, multi-tenant data modeling, and bilingual (ar/en, RTL) product design end-to-end. Now scaling toward project management, fundraising, and GTM.

Next.js 15 React 19 FastAPI PostgreSQL LangGraph Azure Container Apps Multi-tenant SaaS Product Strategy Fundraising GTM

Freelance — Agentic AI & Data Science Consultant

Independent Consultant

📍 Aarhus, Denmark

May 2025 — Present

Designing Agentic AI frameworks (LangChain / AutoGen) that orchestrate and supercharge traditional RPA workflows. Deploying on Azure with Docker + GitHub Actions. Delivered faster knowledge operations, automated documentation flows, and reusable enterprise blueprints.

AI Agents RAG LangChain AutoGen n8n Copilot Studio MCP Docker Azure CI/CD

EffectManager ApS

Data Scientist

📍 Skanderborg, Denmark

Jun 2023 — Apr 2025

Led RPA development (Power Automate; logic transferable to Blue Prism) for 200+ Nordic retailers, architecting high-scale, production-grade automation. Enhanced legacy ML forecasting with AI-driven time-series alternatives, improving supply-chain accuracy through Streamlit PoC. Unified legacy pipelines into a scalable Azure / GCS / OpenAI architecture with DataLake integration.

RPA Power Automate Azure DataLake OpenAI Time Series MLOps OCR Computer Vision Python

Valuebeat ApS

Data Scientist

📍 Copenhagen, Denmark

Nov 2022 — May 2023

Shaped product strategy by developing an AI agent that explores databases and surfaces data-driven solutions; built models for approved suggestions including employee-attribution forecasting.

Python SQL PostgreSQL ML PCA RAG (conceptual)

Statistics Denmark

Student Researcher / ML Engineer

📍 Copenhagen, Denmark

Apr — Oct 2022

Built an automated ML-based error-detection system for national education records, raising data quality and reliability of official statistics.

Python ML Statistical Analysis Sampling Visualization

Technical University of Denmark (DTU)

Teaching Assistant — Deep Learning

📍 Copenhagen, Denmark

Aug — Dec 2021

Mentored student projects, led lab sessions, and co-designed materials for DTU's Deep Learning course (PyTorch, CV, NLP).

Mentoring

Advanced Schools

Riyadh, Saudi Arabia

2010 — 2018

Department Manager & American Diploma Director / Math Teacher

Evolved from STEM teacher to Department Manager and American Diploma Director: aligned delivery with 21st-century standards, embedded technology in management, and ran data-driven curriculum and action plans.

EDUCATION

M.Eng — Applied Mathematics & Computer Science

2019 – 2022

Technical University of Denmark (DTU)

Specialization: Data Science, ML, Signal Processing

B.Eng — Information Management Systems

2005 – 2010

Tishreen University, Latakia

Software development, IT infrastructure, organizational systems

B.Sc — Mathematics

2004 – 2009

Tishreen University, Latakia

Statistics, calculus, algorithms — analytical foundations for DS & ML
